

1.Humanities classroom:

A classroom equipped with a whole set of multi-media teaching video system which may serve various purposes for teachers' multi-media teaching. The huge desks in the classroom help serving the teaching need of calligraphy and the seal type.

2.Social classroom:

In addition to the video system, there is Japanese-style floor which serves purposes for courses regarding counselling and bodily activities.

3.Math classroom:

There are 22 computers with linked networks that provide an excellent space for computer-aided teaching as these computers rapidly represent a computer-based reality of diagrams, numbers, and a three-dimension space.

4.Arts classroom: A ladder-style classroom which serves purposes exclusively for arts courses.

5.The exhibition room for general education:

A big room with video equipment. It also could be used as a meeting room or a room to display the teaching results of general education at the end of each semester.
